Why should you choose Cooper Lighting Solutions for your data center?

Whether your data center is a new construction, a retrofit project, or a modular design, Cooper Lighting Solutions has a comprehensive portfolio of highly customizable, versatile, and configurable lighting products and controls to meet your specifications.

Which LED lighting is best for your data center?

If your data center already has good Power Utilization Effectiveness (PUE), LED lighting will boost it to great PUE! Below are a few products we recommend for each application within this market. The Slim High Bay LED (SHB) provides an even light distribution for optimal visibility between racks and increased readability of labels.

Why should a data center use LED lighting & controls?

Our lighting and controls are the ideal choice for data centers that prioritize energy efficiency. Our LED fixtures use significantly less power than traditional options. And our advanced controls -- such as motion sensors and automated dimming devices -- further reduce energy consumption as well as cut operational costs.

Does your data center need emergency lighting?

Providing emergency lighting during power loss is a life safety requirement. We offer various solutions for data centers, including centrally located emergency inverter power systems, unit emergency lights, exit signs, and emergency battery packs for luminaires, ensuring your facility stays safely illuminated during outages.

Whether you are constructing a new data facility or upgrading an existing one, our sustainable lighting for data centers provides certified efficiency, operational excellence, and long-term ...

The 1000v power supplies for this voltage may also be available in our AD-DC Wide Adjust Output power

supplies or our High Voltage power supplies . If you cannot find the specs you need, we ...

The battery circuit is rated for 8 to 55 AH batteries and the cabinet will house up to two 18 AH batteries. The batteries will operate the panel for at least 24 hours and 5 minutes of alarm. In ...

These power supplies (Table 1) all provide high, reliable power with low noise and excellent regulation and can be controlled from the front panel or remotely through a number of interface ...

1000vTools stocks the largest selection of USA-made double-insulated hand tools in the world. Our tools comply with ASTM F1505-01, IEC 60900, and NFPA 70E standards for ...
