The system offers flexible configuration, compatibility with most EV brands, and is suitable for various industrial and commercial applications such as microgrids and solar storage.

Engineered for long-term performance, safety, and reliability, this advanced lithium iron phosphate (LiFePO₄) battery offers high-capacity storage with industry-leading certifications-UL1973, ...

Introducing our state-of-the-art 215kWh/100kW energy storage system. Designed with precision, it offers unmatched performance across diverse application landscapes.

The newly upgraded JUANN series DIY battery box simplifies the process of building a 51.2V solar storage system. With our Grade A 306Ah cells, you can achieve a 15.5kW solar storage ...

Energy storage cabinet is designed for customer application with power and capacity range requirements of 50kW/100kWh. The system can flexibly scalable the battery cabinet according ...

The GSL ENERGY 51.2V 280Ah Rack-Mounted LiFePO₄ Battery offers a robust and scalable 14.34kWh energy storage solution designed for residential, commercial, and industrial ...

The 14.336kWh floor cabinet LiFePO₄ battery (51.2V 280Ah) is designed for both residential and commercial solar ESS. Its movable cabinet design with wheels, combined with advanced ...
