Where are data center custom server cabinets made?

AMCO Enclosures offers data center custom server cabinets,cases,cages,cable management,and PowerWhips products. All our custom data center network racks and server racks are manufactured right here in the USA at our facility in Des Plaines,IL. This includes data center custom server cabinets,cases,cages,cable management,and PowerWhips products.

How much energy does a data center use?

The digital age is driven by data centers,yet their escalating energy demands pose a significant challenge. Currently consuming approximately 1%of global electricity,this figure is projected to rise dramatically,with U.S. data centers potentially using up to 9% of the nation's power by 2030.

Why are cabinets important in a data center?

Cabinets are one of the most important items in any data center that house different types of IT equipment. We offer different type of cabinets. When selecting a cabinet,it is critical to choose one that can adapt to your IT equipment needs and support your infrastructure to function in the most energy-efficient way possible
