What is 5000W Solar Grid tie inverter?

5000W three phase pure sine wave solar grid tie inverter with 200V-820V DC wide input voltage range, customized 208V/ 380V/ 480V AC output voltage to adapt to the needs of different occasions. IP65 compatible, no transformer type, 2 MPPT with various communication modes of 5kw on grid inverter.

What is grid tie solar inverter?

Grid tie solar inverter with high performance MPPT and APL functions, simply connect the solar power inverters to solar panel system. This type of solar pv inverter often used in residential solar power system, battery energy storage system and wind power system.

How much power does a grid tie inverter have?

On grid inverter comes with 1500 wattAC output power, max DC input power of up to 1600 watt, LCD, convenient for the user to monitor main parameters, transformerless compact design, high efficient MPPT of 99.5%. 1.5 kW grid tie inverter often used in solar farms and rural electrification.

Which grid tie inverter is best?

The protection degree of the 20kw grid tie inverter is IP65. MPPT efficiency can reach 99.5% with perfect self-detection and self-protection function. 3 phase on grid solar inverter is a good choice for home or industrial use. The three-phase grid tie inverter price is reasonable, with 25kW power capacity, two MPPT, and pure sine wave output.

Queen Solar is a dedicated renewable energy enterprise with strong technology, specializing in the R& D, manufacturing and selling of storage inverter, lithium-ion battery and ...
