****StorEn**** is breaking new ground with its first-of-its-kind vanadium flow battery designed specifically for homes. Unlike traditional batteries, it is engineered to last ****20 ...**

The battery uses vanadium's ability to exist in a solution in four different oxidation states to make a battery with a single electroactive element instead of two. For several reasons, including ...

We envision the StorEn home vanadium battery as a plug-and-use product that offers households around the world the ability to be independent from the utility grid.

Engineers have developed a water-based battery that could help Australian households store rooftop solar energy more safely, cheaply, and efficiently than ever before.

This article's for engineers nodding along to redox reactions, policymakers seeking grid stability solutions, and curious homeowners wondering if they'll ever get a vanadium ...
