What is a microinverter solar system?

Typically, microinverters are "distributed" inverters. Solar PV systems with microinverters have a small inverter installed for each individual solar panel. Instead of sending energy from every panel to a single inverter, microinverters convert the DC energy to AC energy on the roof itself.

Who makes hoymiles energy products in Argentina?

Hoymiles is one of the most well-known brands offering renewable energy products in Argentina. Hoymiles itself is basically a manufacturer based in China and was first founded by two students from Zhejiang University.

Is Argentina a good solar market?

Argentina is arguably one of the most interesting solar markets at the moment. The South American nation's solar sector has grown by leaps and bounds over the last three years. By the end of 2020, it had an installed solar capacity of 759 Megawatts. This figure is shocking considering that Argentina's solar capacity stood at 8 Megawatts in 2017.
