Why did Cambodia approve 23 new energy projects for 2024-2029?

Home - News - Cambodia Approves \$5.79 Billion in Clean Energy Projects to Boost Power Security The Cambodian Council of Ministers has approved 23 new energy projects for 2024-2029 to address the country's ongoing power shortages. The decision was made during a cabinet meeting chaired by Prime Minister Hun Manet on September 27 at the Peace Palace.

How will Cambodia's energy projects improve energy security?

These projects will generate a combined capacity of 3,950 MW, while the energy storage facilities will provide an additional 2,000 MW. With a total investment of \$5.79 billion, the projects aim to ensure a stable and affordable power supply, enhancing Cambodia's energy security by reducing reliance on energy imports.

Will Cambodia achieve 70% renewables by 2030?

Cambodia is targeting 70% renewables by 2030. Image: Huawei Digital Power. Huawei Digital Power has successfully commissioned what it claims is Cambodia's first grid-forming battery energy storage system (BESS) certified by T&#220;V S&#220;D.

Why is Cambodia investing \$579 billion in energy projects?

With a total investment of \$5.79 billion, the projects aim to ensure a stable and affordable power supply, enhancing Cambodia's energy security by reducing reliance on energy imports. The initiative also supports Cambodia's goal of achieving 70% clean energy by 2030, contributing to global greenhouse gas reduction targets.
