-----

The Philippines' first large-scale solar-plus-storage hybrid (pictured), was commissioned in early 2022. Image: ACEN. The Philippines Department of Energy (DOE) has outlined new draft ...

The project is slated for commissioning in the first half of 2026 and is expected to be one of the first large-scale energy storage systems in Central Visayas, the company said in a ...

The objective of the project HA-G1048 is to maximize the use of the energy produced by the 8-MWp solar photovoltaic plant (SPP) to further reduce the use of thermal power, by ...

Expert insights on energy storage systems, solar containers, battery cabinets, photovoltaic technology, telecom solar, and road system solutions for South African markets.

Scheduled for completion in the first half of 2026, the facility is expected to become one of Central Visayas' earliest large-scale energy storage installations. The project will be ...

Pasig City, Philippines -- 21 July 2025 - Meralco PowerGen Corporation (MGEN) is set to develop a 49-megawatt (MW) Battery Energy Storage System (BESS) in Toledo, ...

Introduction: Aiming at after-meter side distributed energy storage facilities characterized by mobility, randomness and decentralization, the project realized the functions as instant access, ...

Meralco PowerGen Corp. (MGen), the power generation arm of Manila Electric Co., has enlisted two Chinese companies to kick off the first phase of its 49-megawatt (MW) ...

As Cebu accelerates its transition to renewable energy, demand for efficient energy storage systems has
