Why did Chile's largest steel mill shut down?

Chile's largest steel mill has said it will shut down in the face of competition from cheap Chinese imports.

Who does Huachipato supply steel materials to?

Huachipato supplies steel materials to Chile's massive copper mining industry. Chilean officials consider the plant to be strategically important. The plant employs roughly 20,000 people, directly and indirectly, in Bio Bio.

How much Chinese steel did Huachipato import in 2023?

Latin American steel industry group Alacero said the region imported a record 10mn tonnes of Chinese steel in 2023-- a 44 per cent increase from 2022. Huachipato temporarily suspended operations in March, citing the impact from Chinese imports.

What is the impact of the steel mill's closure on the Bio Bio region?

The closure of the steel mill is a very devastating decision for the Bio Bio region. "This is a very devastating decision for the Bio Bio region, and the country knows that we as a government have made a great effort to reverse it," economy minister Nicolás Grau said on Wednesday. The plant employs roughly 20,000 people, directly and indirectly, in Bio Bio.
