What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Is a NEMA 4X outdoor enclosure waterproof?

Both ratings indicate a waterproofand dust-tight enclosure that provides excellent protection against airborne particulates,adverse weather conditions,and repeated hose-downs. However,a NEMA 4X outdoor enclosure has an additional feature that a NEMA 4 outdoor enclosure lacks: protection from corrosion.

What are the features of our enclosures?

Versatile installation features: Our enclosures have two universal wall and pole mounting brackets and an adjustable and removable back plate. This construction allows for smooth installation on various surfaces and integration of equipment inside or outside without drilling additional holes.
