How much does a solar panel cost in Switzerland?

For a standard villa with a panel surface area of 50 m² and a 10 kWh battery, the average price is around CHF 22,000, after deduction of subsidies and tax allowances. How long does it take to recoup your initial investment in a solar system? What are the advantages of a battery-powered solar system for my home in Switzerland?

How much does a Volta Swiss solar installation cost?

Case study of a Volta Swiss solar installation in the Lausanne region: 37.3 m² photovoltaic installation with 10 kW intelligent hybrid inverter and 10 kWh LiFePO₄ storage battery for a 3-person family villa, with air/water heat pump heating system, swimming pool and charging point for hybrid car. Total cost of installation CHF 25,400.00.

Why are solar panels becoming more popular in Switzerland?

The solar photovoltaic (PV) based solar panels represent the largest segment of the Swiss solar energy market due to the increasing commercial and residential installations of solar modules. The Swiss government announced in 2019 that it would achieve net-zero greenhouse gas emissions by 2050.

When will bifacial solar panels be available in Switzerland?

In February 2022, Megasol Energie AG announced the launch of the 500W bifacial solar module with an estimated power conversion efficiency of 23.2%. In May 2021, the Swiss government announced that it had allocated CHF 470 million for solar rebates in 2021.

Explore the updated 2025 list of top solar companies in Switzerland. Features global players like Grace Solar, Swiss Solar, and Megasol, with insights into their products and market strengths.
