---

Gabon's Ogooué River Solar Project isn't just slapping panels on roofs. They're pairing 80MW of solar with lithium-ion batteries that could store enough juice to charge 3 ...

Developed by Gabon Power Company in partnership with Wärtsilä, under a build-own-operate-transfer IPP model, the plant will primarily utilize natural gas from Gabon's ...

With construction set to commence in June, the Owendo gas-to-power project marks a significant step forward in Gabon's efforts to modernize its energy infrastructure and ...

Which power supply mode is used for micro base station?For the micro base station, all-Pad power supply mode is used, featuring full high efficiency, full self-cooling and smooth upgrade ...

The Project for Introduction of Clean Energy by Solar To increase power generation capacity, diversify power sources, and raise awareness of people of Gabon for utilization of renewable ...

The newly elected government of Gabon has signed two agreements with the Africa Export-Import Bank accepting loans worth more than \$3.2bn for industrial development. The ...

The Gabonese authorities have just signed a framework agreement for the construction of a 120 MWp solar photovoltaic plant. The facility, which will be located in Ayem; Plaine, ...

The first energy storage facility under Eskom's flagship BESS (Battery Energy Storage System) project has officially begun construction as marked by a ceremony at the Elandskop BESS

Once completed, the plant will have a capacity of 130,000 m3/day and will have a significant impact on the
