## How much does electricity cost in Germany?

The residential electricity price in Germany is EUR 0.380 per kWh or USD 0.440. The electricity price for businesses is EUR 0.251 kWh or USD 0.291. These retail prices were collected in March 2025 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Germany with 150 other countries.

## When did the Germany electricity price reach an all-time high?

Historically, the Germany Electricity Price reached an all time high of 699.44 in August of 2022. Electricity prices displayed in Trading Economics are based on spot benchmarks offered by sellers to buyers priced in megawatts per hour (MWh) in the local currency.

## Why do German households still have high electricity bills?

Despite the growth of cheaper renewables, German households still face high electricity bills. Why? Because the final price isn't just about how electricity is generated. It's also about network charges, taxes, and various levies. In 2025, a typical household's electricity price breaks down like this:

## How much energy does a shower save in Germany?

With the energy-saving shower, you can save up to 50% energy compared to standard shower heads. Or you can shower half the time. With the electricity price today in Germany you can save 0.25 EUR for each shower. What is a kWh? kWh stands for kilowatt-hour, and is a unit that tells how much energy is used in one hour. Kilo means a thousand.
