Is a 100W solar power station a good choice?

A new compact power station by an upcoming brand with bigtime battery experience. Our favorite aspect is the fast AC charging combined with >20ms UPS transfer time. The 100W solar charging matches the top brands. Although testing is limited and brand recognition still has a long way to come, this may be a real contender.

What is the best portable power station?

Check out our directory that allows you to Compare All Portable Power Stations. Your search doesn't have to take forever. It can stop right here with the EcoFlow Delta 3 Plus. This portable power station has earned our top spot after much testing and countless comparisons. It's a powerful unit that has the ability to grow with your needs.

What makes a good power station?

The best power stations usually feature LiFePO4 batteries, also known as LFP or lithium iron phosphate. These can be rated for 3,000 charging cycles or more before having significant battery capacity degradation. Manufacturer warranty coverage is an essential consideration when selecting a power station to buy.
