OverviewHistory and developmentFeed-in tariffEducational and research facilitiesSolar power stationsFinance and businessSee alsoExternal linksThe use of solar energy began in Israel in the 1950s with the development by Levi Yissar of a solar water heater to address the energy shortages that plagued the new country. By 1967 around 5% of water of households were solar heated and 50,000 solar heaters had been sold.

With the 1970s oil crisis, Harry Zvi Tabor developed the prototype of the solar water heater now used in over 90% of Isr...
