Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakōkō on North Island. Saft lithium-ion technology will ...

Saft, a subsidiary of TotalEnergies, has won a major contract to deliver a turnkey, utility-scale battery energy storage system (BESS) for Genesis Energy Limited, a listed New ...

September 27, 2024: Saft, a subsidiary of French oil giant TotalEnergies, has won a 100MW/200MWh contract to deliver a turnkey, utility-scale BESS for Genesis Energy, a listed ...

We were impressed by Saft's competitive offer and track-record in delivering utility scale BESS projects in New Zealand. This is why we selected their BESS solution for the first ...

Confirmed yesterday (19 September), the 2-hour duration BESS will be installed at Huntly Power Station on the country's North Island, owned by Genesis, a listed New Zealand ...

New Zealand state-owned energy company Meridian Energy has committed to the construction of a 100MW battery energy storage system (BESS), to be provided by Saft.

This standard places restrictions on where a battery energy storage system (BESS) can be located and places restrictions on other equipment located in close proximity to the BESS. As ...

The BESS will be installed at Huntly Power Station on New Zealand's North Island. The BESS will be based on 70 of Saft's "Intensium Shift+" lithium-ion battery containers ...

Construction of the BESS, located south of Whangārei, the northernmost city of New Zealand, began in early 2023 and was completed within the project's original budget of ...

We're providing detailed design and construction support for New Zealand's first grid-scale Battery Energy Storage System (BESS) to enhance energy resilience.

Genesis Energy, a prominent energy generation, wholesale, and retail company in New Zealand, has commenced the construction of a 100MW/200MWh battery energy storage ...

He also emphasized that the BESS is part of the company's Gen35 strategy, which aims to develop a 400MW system by 2035 at the Huntly Power Station, viewing this project as ...
