What are storage cabinets used for?

Built for durability, these storage cabinets are designed for specific uses such as storing janitorial cleaning supplies, securing medical equipment, tools, and supplies, as well as organizing classroom materials, and more. Available in a range of sizes and styles to fit the needs of your business.

What makes a good storage cabinet?

Whether designed with solid-doors that conceal its contents, clear-view doors that offer full visibility, or ventilated doors which allow air to flow, durable storage cabinets keep workspaces orderly and items secure. Constructed in 22-24 gauge steel with a shelf capacity of up to 300lbs.

What are the different types of storage cabinets?

Choose from compartment cabinets and modular drawer cabinets to small parts organizers and tool chests & cabinets. Built for durability, these storage cabinets are designed for specific uses such as storing janitorial cleaning supplies, securing medical equipment, tools, and supplies, as well as organizing classroom materials, and more.
