What is off grid solar?

Reduce or eliminate your high electric usage with no money out of pocket with off grid solar. Name brand, battery based, true off grid solar systems. Charge your EV with free energy from the Sun day or night. Advanced energy storage systems for residential and industrial applications.

Why is a 15kW solar system more expensive than an off-grid system?

A 15kw solar system with battery backup, off-grid or hybrid, is significantly more expensive, primarily because of the batteries. However, sometimes a hybrid system pays for itself quicker because energy storage helps to avoid peak energy rates from the utility.

What is a DIY off-grid solar kit?

Deliver power to remote locations with our DIY off-grid solar kits. These kits contain the components you need to install a fully self-sufficient off-grid solar system, including solar panels, an off-grid inverter, and mounting materials. We'll also customize your kit with a battery bank sized to meet your storage needs.

Are off grid solar systems a good choice?

Over the past 6 years, dozens of overseas manufacturers have jumped on the off grid bandwagon. These systems are OK for occasional, light duty, non critical off grid applications but they tend to fail right when you need them most. At Off Grid Solar, we never include low cost, overseas knock off products in our systems.

This Lithium Battery bank will give you 32000 Watts of usable Energy. The Solar Array will produce around 69300 Watts per day based on 4.5 hours sun. This size of system generally ...
