What are outdoor cabinet solutions?

Outdoor cabinet solutions are widely used in various sectors: Telecommunications: In telecommunications infrastructures, outdoor cabinets are used to protect base stations, network switches and other communication devices located outdoors.

What is an outdoor integrated cabinet?

Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Support custom-made.

What is an outdoor Telecom cabinet?

Technologies such as digital transformation, Industry 4.0 and Big Data create revolutionary differences in our lives. Outdoor Telecom Cabinets are rugged enclosures designed to protect telecommunications equipment from environmental factors while providing secure access for maintenance.

What is the Internet of Things (IoT)?

The term "Internet of Things" (IoT) describes the vision of connecting a vast array of things such as environmental sensors, traffic lights, city infrastructure, industrial machinery, cars, home appliances, and so on to a common network, the Internet.

Meshtastic empowers users to send text messages, share GPS locations, and stay connected across vast distances without reliance on cellular networks, Wi-Fi, or satellite systems.

This is ideal for closed network type applications such as CCTV, campus sites, and disaster recovery scenarios, where there is no centralised infrastructure or Network Operations Centre.
