How do you pay for a solar system?

There are three main ways to pay for your home solar system: upfront with cash,a solar loan,or through a lease or power purchase agreement (PPA). If you can't afford to pay for your system out of pocket--or don't want to tie up that capital--solar financing allows you to spread the cost over time through a loan or lease.

How much money can a home solar system save?

Most homeowners save around \$50,000over 25 years What are your solar financing options? There are three main ways to pay for your home solar system: upfront with cash,a solar loan,or through a lease or power purchase agreement (PPA).

Should you pay for solar?

The way you pay for solar directly impacts your total savings and how quickly you'll break even on your investment. Whether you have cash on hand, prefer monthly payments, or want to keep your capital available for other opportunities, there's a financing option designed for your situation. Most homeowners save around \$50,000 over 25 years

Should you take out a loan to finance a solar system?

Taking out a personal loan or a home equity loan to finance your solar system is also an option worth considering. But regardless of loan type,interest is the main tradeoff,reducing total savings compared to cash.
