Is Peru a lithium producer?

Peru is not currently a lithium producer. However, the various prospecting projects underway in the Puno region offer a potentially promising future, given the high global demand for this product as a raw material, mainly for the manufacture of batteries.

Does Peru need a lithium policy?

the need to define the national policy on lithium in Peru. Besides the uncertainty about possible new lithium regulations, there also exists uncertainty about the current Peruvian political situation, which might jeopardise the future exploitation of the deposit. Peru is not currently a lithium producer.

Does Peru have a Bess regulation?

Peru has no existing BESS regulation and is currently evaluating how to move forward with battery storage projects. In fact, in January 2024, Peru's energy and mining investment regulator, Osinergmin, opened a request for a proposal for a study on energy storage.

Does Colombia have a power purchase agreement for hybrid solar & Bess projects?

As of now, Colombia's reliability charge (Cargo por Confiabilidad) has encouraged hybrid solar +BESS projects to progress. Large energy companies have expressed that there are no Power Purchasing Agreements(PPAs) available specifically for stand-alone storage projects, making it harder to finance those projects.
