What is an outdoor telecom enclosure?

The outdoor telecom enclosures, which are also referred to as telecommunications cabinets, are fully enclosed cabinets that help protect electrical cabling and other equipment from potentially damaging environments. Such damage can be caused by dust, rain, ice, and external heat. What do you need to know about outdoor telecom enclosures?

Can telecommunications equipment be terminated outdoors?

One of the biggest challenges of terminating your telecommunications equipment outdoors is finding outdoor enclosures that will be able to properly withstand the elements. Temperature, moisture, ice, shock hazards, and UV damage are all potential dangers to consider before purchasing an outdoor enclosure or cabinet.

Does rackmount solutions offer outdoor enclosures?

Rackmount Solutions also carries outdoor enclosures for your telecom and industry needs. From 16" to 90" heights, from 25" to 42" of depth, we can help size the right enclosure for your site. Our selection include NEMA 4 and 4x rated cabinets along with air conditioning or heating based on your environment.

What is an outdoor electrical enclosure?

Our outdoor electrical enclosures are designed and manufactured to provide a degree of protection against rain, sleet, snow, ice, dirt, and dust. This enclosure is suitable in a remote location where enclosure can withstand the toughest and wind and weather conditions, even unattended for a longer period of time.

With integrated North American manufacturing facilities and in-house engineering expertise, we can quickly customize our cabinets and enclosures to precisely meet the needs of your ...
