Green hydrogen represents a sustainable energy solution capable of supporting the global shift away from fossil fuels. In Algeria, with its abundant solar resources, this ...

A 362 MW DC solar project in Algeria will be equipped with Hi-MO 7 modules supplied by LONGi to Özgün ?n?aat as part of the national 3 GW solar tender led by Sonelgaz.

Algeria is progressing with its strategy to diversify its energy sector, with a focus on a balanced mix of renewable energy, green hydrogen and traditional oil and gas development.

Algeria reaffirms its role in the SoutH2 Corridor, a network dedicated to green hydrogen linking North Africa to Europe, with the ambition of promoting cross-border energy exchanges and ...

skopje household photovoltaic energy storage project It is necessary to accelerate the deployment progress of large-scale storage projects in order to release the demand for wind and solar ...

Algeria continues to develop solar and hybrid energy projects. The country is increasing renewable energy capacity through both large-scale plants and smaller local ...

The transition to renewable energy in Africa should have energy for everyone as its goal or the 600 million African people who lack electricity may remain without.

The U.S. Department of the Treasury released additional guidance on the Inflation Reduction Act's domestic content tax credit bonus for solar and battery energy storage projects.

Among them, the 233-megawatt photovoltaic project completed in 2016 was Algeria's first new energy
