What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is the AP freedom triple bay enclosure?

The AP Freedom Triple Bay enclosure provides expanded multi-equipment capacity with three independent bays, robust environmental protection, and optimized airflow. Designed for telecom, broadband, and edge processing, it supports scalable configurations, organized routing, and secure outdoor infrastructure growth.

Vikiner outdoor enclosures, including our industry-leading multitenant cabinets, safeguard critical telecom, energy, and industrial equipment from weather, dust, and vandalism.

We provide superior outdoor enclosures that are ready for installation. Fill out our registration form or call us at 904-674-2976 to learn more about our products and customization services.
