How much electricity does South Tarawa need?

The PV systems account for 22% of installed capacity but supply only around 9% of electricity demand on South Tarawa. Diesel generation supply the remaining 91%. In 2019,demand on South Tarawa,the largest in the country,was 24.7 gigawatt-hours(GWh).

Why is South Tarawa project important?

This is a natural asset for South Tarawa and the project will help to reduce the decline in water availability and water qualityas well as avoid the risk of further encroachment of incompatible land uses and contamination.

Who produces grid-connected electricity in South Tarawa?

Grid-connected electricity in South Tarawa is generated and distributed by the state-owned Public Utilities Board (PUB),established under the Public Utilities Ordinance (1977, and further amended in 2000). The PUB's mission is to commercially provide and maintain quality,reliable electricity,water, and sewerage disposal services to Tarawa.
