What are data center rack and cabinet solutions?

These data center rack and cabinet solutions are ideal in places where the ambient temperature is insufficient to support hot data center machines. Custom production gives you the privilege to choose preferred specifications to create your custom made boxes.

What is a waterproof rack mount cabinet?

Already used throughout Europe to house servers and other rack-mountable devices, the 700 series Waterproof Rack Mount Cabinet can be supplied with a surge-protected mains power block, air circulation fan (s), and an optional heater unit for cold environments.

Why do you need an electrical enclosure for your data center?

Your IT equipment should have enclosures to house and protect them from possible damage, water accidents, or dust particles. Our company, your reliable data cabinet supplier, offers custom electrical enclosures for data centers to ensure a stable data storage system.

Why should you choose custom server racks & network cabinets?

Starting with flexible, easily installed, adaptable and pre-configured customized server racks and network cabinets saves you costs, footprint and it increases the performance, efficiency, and reliability of your critical infrastructure. Let's discover the data center custom containment solutions that help you reach your objectives.
