Why is Buenos Aires investing \$540 million in energy storage?

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for Argentina - and potentially, a blueprint for the entire region. What role will energy storage play in your country's energy transition?

Who will sign the energy storage contracts in Buenos Aires?

The energy storage contracts will be signed with leading electricity distributors in Buenos Aires, Edenor, and Edesur, while the Wholesale Electricity Market Administration Company (CAMMESA) will be the guarantor.

Is Buenos Aires a good place to buy a battery?

Buenos Aires, with its dense urban load and aging infrastructure, is an ideal candidate for such an upgrade. Moreover, this tender arrives at a time when battery prices are becoming increasingly competitive, and international developers are actively seeking new markets with clear regulatory frameworks and stable revenue models.

The Energy Secretariat of Argentina's Ministry of Economy has launched a global tender for 500 MW of battery energy storage system (BESS) projects in the Metropolitan Area of Buenos ...
