Does Shanghai have a hydrogen refueling station?

Shanghai is committed to hydrogen energy development through various initiatives, aiming to peak carbon emissions by 2025--five years ahead of the national target. As of February 2025, around 5,000 hydrogen fuel cell vehicles and 18 hydrogen refueling stations have been deployed in the Shanghai region.

What is the International Hydrogen Energy Valley?

The International Hydrogen Energy Valley in Shanghai's Lingang Special Area aims to exceed a 20-billion-yuan scale in the hydrogen fuel cell industry by 2025. It seeks to become a world-class fuel cell vehicle innovation center and an industrial hub supporting Lingang Special Area's pioneering zone for hydrogen energy development.

Why is hydrogen a key pillar of China's energy transition roadmap?

Hydrogen is a strategic pillar of China's energy transition roadmap, playing a significant role in contributing to the nation's climate ambitions. Shanghai is committed to hydrogen energy development through various initiatives, aiming to peak carbon emissions by 2025--five years ahead of the national target.

How will a hydrogen-powered transportation center benefit the region?

This capability will enhance the reliability and efficiency of the region's hydrogen supply chain, accelerating the adoption of hydrogen-powered transportation. The center will also supply industrial customers.

The RMB80 million investment represents a critical advancement in hydrogen energy infrastructure for both the city and the wider Yangtze River Delta region. Driving the ...

Pipeline Gas Journal (P& GJ) - Air Liquide and Shenergy have inaugurated a new hydrogen energy facility in Shanghai, marking the launch of China's first 300-bar Type II hydrogen filling ...

Air Liquide and Shenergy have opened China's first 300-bar hydrogen supply center in Shanghai, boosting regional hydrogen mobility and industrial use with a daily capacity of 12 ...

These advancements, combined with Air Liquide's well-established hydrogen supply network in Eastern China, ensure reliable and sustainable hydrogen distribution. Hydrogen is a ...

Air Liquide has inaugurated the Shanghai Chemical Industry Park Air Liquide Shenergy Hydrogen Energy Development (ALSHSN), a new facility co-developed by the ...

Located at the Shanghai Chemical Industry Park (SCIP), the Shanghai Hydrogen Energy Supply Basin (Alshsn) has been backed with \$13.8m in investment to ensure its development. With an ...

A battery that stores renewable energy like a squirrel hoards acorns, but instead of nuts, it's packing the lightest element in the universe. Welcome to China's hydrogen energy ...

liquid hydrogen storage based refuelling station (LHRS) and the associated infrastructure for hydrogen mobility. In this lecture, a comparison is made between GHRS and ...

Air Liquide's joint venture - Shanghai Chemical Industry Park Air Liquide Shenergy Hydrogen Energy Development Co., Ltd. (ALSHSN), also known as Shanghai ...
