What is the megaton moon Green Hydrogen Project?

The agreement, signed by Mr. Mohamed Khaled, Minister of Energy and Petroleum and Karsten Nielsen, CEO of GreenGo Energy, grants GreenGo Energy access to more than 100,000 hectares of land near Nouakchott, Mauritania, to develop the transformative Megaton Moon Green Hydrogen Project.

Who signed the GreenGo energy framework agreement in Nouakchott?

Signing of the agreement in Nouakchott by the Minister of Energy and Petroleum, Mr. Mohamed Khaled, the CEO of GreenGo Energy, Mr. Karsten Nielsen, The Minister of Energy and Petroleum, Mr. Mohamed Khaled continues: "I am delighted to formalize this framework agreement with the Danish company GreenGo Energy."

Is Africa a good place for hydrogen production?

With its abundant solar and wind resources, strategic coastal location, and Africa's first Green Hydrogen Code, the country offers an ideal environment for large-scale hydrogen production. "This is a landmark moment for GreenGo Energy," said Karsten Nielsen, CEO of GreenGo Energy.

Why should Mauritania invest in green hydrogen production?

Mauritania offers unique advantages for green hydrogen production: Empowering Mauritania's growth. GreenGo Energy is committed to fostering socioeconomic progress in Mauritania.

The first phase will deploy 3 GW of renewable power and up to 1.6 GW of electrolysis, enabling 150 kilotons of green hydrogen production annually. Meanwhile, German ...

This ambition is taking shape through massive undertakings, such as the "Megaton Moon" project near Nouakchott. This commercial-scale facility will use dedicated off-grid wind ...
