Why should you choose an outdoor electrical enclosure with an IP55 rating?

When you choose an outdoor electrical enclosure with an ip55 rating,you get a solid balance between protection against dust and water. The ip55 rating means your equipment receives almost complete protection from dirt,dust,oil, and other non-corrosive materials. You also gain complete protection from contact with the enclosed equipment.

What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

Is a CyTech outdoor cabinet IP55 or IP65?

For general-purpose outdoor use,IP55 may be sufficient, but for environments with heavy dust or water exposure,IP65 is a better option. Cytech introduces the IP55 Outdoor Cabinet and IP65 Outdoor Cabinet, two innovative solutions engineered to deliver maximum protection for electronic equipment in outdoor environments.

Why is IP65 a good choice for outdoor equipment?

IP65 is ideal for protecting equipment in such harsh conditions. ? Outdoor installations in desert climates: The complete dust protection of IP65 is critical in dusty environments like deserts, where equipment could otherwise fail due to dust ingress. Cost Implications of IP55 and IP65 Ratings
