What is a constant climate cabinet?

With their highly efficient refrigeration system and outstanding thermal insulation, ESPEC's constant climate cabinets are ideal for use in laboratories and research facilities. They offer a wide temperature/ humidity range, and create a stable cabinet environment with a temperature gradient/ variation of 5°C.

What is a controlled room-temperature cabinet?

Controlled room-temperature cabinets create a stable environment for medicines and pharmaceuticals that need to be stored between 68° F to 77° F (20°C to 25°C). Note: Product availability is real-time basis and adjusted continuously. The product will be reserved for you when you complete your order.

How does the lhu-124 cabinet work?

They offer a wide temperature/ humidity range, and create a stable cabinet environment with a temperature gradient/ variation of 5°C. The LHU-124 model's cross-output control system lowers the maximum current during operation, reducing the amount of required power. You can connect the cabinet to your local area network.

How many types of humidity cabinets are there?
