Where is Solaron available in Armenia?

Solaron's services are available throughout all regions of Armenia. Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Propanel.

Where are Solaron solar panels made?

Solaron produces solar panels at its own modern production facilities located in Yerevan. To ensure the production of high-quality solar panels, the company has invested in a modern and innovative production line from the renowned Italian company Ecoprogett.

How many solar panels does Solaron produce a year?

Our annual production capacity of solar panels is 60 MW. Over the course of 8 years, Solaron has successfully launched and completed more than 2000 projects both in Armenia and abroad. Innovation is at the core of Solaron's approach, and we actively integrate innovative technologies and solutions into projects.

These models of solar systems provide high power efficiency due to their unique design. The solar panel is divided into two parts. Even if one part of the panel is shaded, the other will continue ...

Solar modules are produced in Armenia on innovative high-tech equipment. Our solar systems are certified according to international standards (CE, EAC, IEC, UL, PID) and have passed ...

Meet our new 60 KW rooftop project installed on the factory located in Yerevan. Installed capacity: 60.4 KW - System production: ~ 90 MWH/Year - Saved CO2 emissions: ~ 174.240 ...

Solaron produces solar panels at its own modern production facilities located in Yerevan. To ensure the production of high-quality solar panels, the company has invested in a modern and ...

The influence of dust on the operational parameters of PV modules in Yerevan (Armenia) location is experimentally investigated by using a newly developed cleaning system.

Solaron produces solar panels at its own modern production facilities located in Yerevan. To ensure the production of high-quality solar panels, the company has invested in a modern and ...

Solar Cells Solar Panel Solar Module Ultra-high Efficiency TOPCon Module Much higher module conversion efficiency of 23%, resulting in significantly lower LCOE and greater BoS savings ...

A photovoltaic (PV) module is a unit comprised of PV cells that gather sunlight and turn it into energy. Each module contains multiple PV cells shielded by different materials ...

Presented solar panels are produced in Armenia by experienced professionals at the highest technical production. Our solar systems are internationally certified with CE, EAC, IEC, UL, ...

Perovskite solar cells (PSCs) are a promising laboratory-scale PV technology with PCE reaching 25.7% for single-junction cells and 32.5% for tandem solar cells (TSCs) with ...

To further expand their production capabilities, LA Solar is currently in the process of constructing a new plant dedicated to manufacturing aluminum frames for PV panels. Additionally, the ...
